Media Types

IntelligenceBank gives users an industry leading experience for Image, Video and Audio files. However we don't stop there, extending this experience to documents, presentations, GIFs and even HTML pages. Manage all your media types in the one platform, complete with proofing and comments, approvals, version control, and industry leading compliance features.

	IntelligenceBank	Bynder	Canto	Brandfolder	MediaValet

Video	91%	85%	83%	87%	89%
Audio	91%	83%	83%	87%	87%

The screenshot displays the IntelligenceBank web interface. At the top, there's a navigation bar with tabs: Dashboards, Assets (selected), Collections, Guidelines, Projects, Approvals, and Brand News. Below this, a 'Stock Photography' section shows a grid of image thumbnails with captions like 'Girl Wearing Orange Sweater' and 'Excited girl with orange background'. A 'Video Player' is overlaid on the grid, showing a video of two people laughing. To the right of the video player is an 'EXPORT OPTIONS' panel with settings for Output Format (MP4), Resolution (Original (800p - 800) x 1920), Enable Watermark (toggle), Position (Centre), and a 'Save' button.

Workflows for Briefs / Campaigns

From ideation, review, campaign approval, asset markup and approvals, to launch.

Workflows for Asset Approvals

Setup simple or staged approval processes, and easily track exactly who approved what and when.

Integration Workflows

Integrate your DAM with your MarTech Stack, triggering workloads in other systems. E.g. download an asset from Getty Images and its instantly in your DAM with usage rights, or notify Slack channels as new assets are added.

Workflows for Proofing

Collaborate and give feedback on assets using comments, tagging, annotations and drawing tools. Compare versions side-by-side.

Download Approvals

Setup specific assets to require download approvals. Or setup pre-approved download depending on your asset use case.

Creative Templates

Create customizable templates that allow satellite offices to localize brand-approved assets.

Disclaimer Engine Workflows

Setup logic to generate all your disclaimers at the start of your campaigns.

Brand Portal

91%

Intelligencebank
